WHAT THE LEGISLATURE WILL DO. Then we are to elect a Legislature, And this is something that the poor man is just as much interested in as the rich man, and the Hawalian just as much as the foreigner. The Legislature will make our laws for us. It will make appropriations for schools, and roads, and the opening up of public lands for homesteads, so that every man can have a little home in which to raise his family and some land which he can make a living for his WITUAL LIFE INSURANCE CO. family. Franklin Austin has been the assiduous disseminator of the reports and has been working hard to that end. Austin though nominally a member of the Independent Party has been retained by David to help his cause among the adherents of Wilcox. Austin has frankly and openly opposed Wilcox and has tried to hurt him in every way.

He has made an aggressive campaign against Bob and has not hesitated to beard the lion in his den and to talk & Wray Taylor, Commissioner of against the Garibaldian even in Independent headquarters. Now however it is all over.

Austin has shot his bolt and failed. Austin's scheme was to bring Wilcox to a sense of his unfitness for the office & of Delegate to Congress and to have him voluntarily retire from the field and perhaps accept a Senatorial nomina-

Yesterday four political speakers expounded the doctrines of their respective parties to a large crowd of natives who were on their way home after the Mormon conference. While the crowd was waiting for the train at Kahuku, J. E. Bush and S. K. Kaloa helped to while away the monotony of the waiting hours by telling of Bryanite principles while D. Kealakaihonua, an elder of the Church of Christ of the Latter Day Saints and Daniel Kekaha spoke on Republicanism. There were about 700 natives present and all enjoyed doctrines of the two great political parties of the United States.

erroon and preparations to comply were begun immediately. General Chaffee is here directing the movement, which will commence at the Today is the last day of registration. Notwithstanding the gen-eral opinion of the public on the cuestion that the 10th of October was the final day of grace, today is the last day, according to the construction of the law by Attor-

ney General Dole.

The law establishing the Board of Registration and providing the times for its sessions is somewhat indefinite as to the day when registration shall close. It says in section 4 of the Rules for Administer-Oaths and Holding Elections: "The Boards shall meet within their respective districts at such times BETWEEN THE LAST DAY OF AUGUST AND THE TENTH DAY OF OCTOBER IN THE YEAR 1900. and between such days in each second year thereafter as many times as may be necessary to enable them to register all persons entitled to register."

Early in the present summer from Attorney General Dole on the subject of the proper construction of the law. Mr. Dole said in his opinion that he believed a proper construction of the law would fix the first day of registration as September 1st and the last day October 9th. When it first dawned on the poli-

ticians yesterday that today was the last day there was left for registration there was well nigh a panic in the different political headquarters and there was much scrambling to see that every voter who was known to be unregistered was dragged to the registration booth today. The general opinion had been that the intent of the law was to have October 10th the final day and most of the politicians and many voters had so figured, but the opinion of the Attorney General leaves no doubt on the construction of the law, and today will be the last chance for those who desire to exercise the franchise to get their names on the regis-

WHY AMERICANS WITHDRAW. WASHINGTON, D. C., Sept. 26 .- A member of the Diplomatic Corps says that the recent actions of the United States respecting China were based solely on the fact that this Government has in its possetsion information that a formal war will start in the Far East in the next two months at the outside, and the United States did not care to take the risk of becoming involved in it.
